

REMARKS

I. Corrected Certified English Translation of PCT Priority Document

The rules for filing a US National Stage application require the filing of a complete copy of the PCT priority document and a complete and accurate certified English translation of the PCT priority document as the basis for a US National Stage application based on the PCT priority document.

Unfortunately when the English translation of the PCT Priority document PCT/EP 01/03121 for US Patent Application Ser. No. 10/049,667 was filed, translations of the last three claims of the priority document were inadvertently omitted from the English translation. US Patent 6,680,174 issued from Ser. No. 10/049,667.

Please find a complete and accurate certified English translation of PCT/EP 01/03121 accompanying this amendment.

Although a certified English translation of PCT/EP 01/03121 was filed with the Reissue Patent Application transmittal and Reissue Declaration, the papers of the last few pages were mixed with the last papers of the incomplete English translation so that it was not entirely clear what constituted the complete English translation.

Another copy of the complete English translation is being filed with this amendment in order to correct the above-described deficiency. All papers of the complete English translation follow the certification page on which the translator
